

Dear patients,

All of us are at risk of catching COVID if exposed to the virus.

We are taking **Covid-19** very seriously and have made many safety measures to protect our patients and staff providing a safe and germ-free environment.

Below are some of the things we are doing to keep everyone well and safe.

- We have increased the appointment time to allow staff to have enough time to sanitize the area before treating the next patient.
- have reduced the daily number of appointments
- Every 2 hours, we sterilize all our devices and areas with medical-grade disinfectants. After each patient completes their visit, we sanitize all areas they occupied or touched before allowing the next patient to come into the clinic.
- Dr. Goldstone is updating the staff daily on any new safety measures which need to be implemented due to COVID.
- Our staff is fully equipped with PPE gear.
- We take patient temperature before walking into our facility.
- We schedule appointments, so there will be no wait time in the clinic.
- Hand Sanitizer has been placed in the office to assist patients with ways to stay clean.

To help you **stay healthy, fortify your immune system, and lose/maintain weight**, we offer the following injections at a special price. Of course, all our other services, including weight loss, lifestyle plans, hormone balancing, and biochemical balancing your body and all our specialized testing, are now

available.

- **B 12**-detoxifies the body, helps increase energy and bolsters the immune system
- **B complex**- boosts energy, reduces stress, anxiety, improves mood
- **Vitamin B 7**- biotin-keeps hair healthy and may stop hair loss. Since the pandemic, more people are complaining of hair shedding. This can occur with huge stresses
- **Glutathione** - a super-powered antioxidant with free-radical scavenging activity that protects your body from diseases and improves immune function
- **MIC lipo slim** shot which helps with losing some of the extra pounds gained due to sheltering in place.
